 - ▼ 8" SPIKES WITH "WHISKERS" SET ON LINE
 - FENCE CORNER
 - X — EXISTING FENCE
 - MAG SPIKE AND WASHER

BASIS OF BEARINGS
 This survey was performed using G.P.S. (Global Positioning System) equipment and procedures. The basis of bearings for this survey is a bearing of South 89°09'56" West from the North Quarter Corner to the Northwest Section Corner of Section 20 derived from G.P.S. observations using the Utah State G.P.S. virtual reference station control network maintained and operated by the Utah Geospatial Resource center.

NARRATIVE
 The purpose of this survey was to find and/or set the lot corners of lots 20-38, 20-45, and 20-46 of BLUE BENCH RANCHES SUBDIVISION. The corners of the lots were originally monumented with 1/2" rebar. A search was made to locate these original corners and the results are noted on the plat. The line connecting the Southeast Section Corner with the East Quarter Corner was used as the East line of the lots and any lot corner monuments found along this line were treated as closing corners. Other lot corners were set as noted. The monuments marking the Public Land Survey System corners were found as indicated and used to control the survey.

SURVEYOR'S CERTIFICATE
 I, Jerry D. Allred, do hereby certify that I am a Professional Land Surveyor, and that I hold certificate no. 148951 as prescribed by the laws of the State of Utah; I further certify that this plat and its computations were prepared from the field notes and electronic data collector files of an actual survey made by me, or under my personal supervision, of the parcels of land shown hereon, and that the monuments indicated were found or set during said survey, and that this plat accurately represents said survey to the best of my knowledge.
