- PIPE BUNDLE
- o--- OVER-HEAD POWER LINES
- FROST BOX

THIS SURVEY WAS PERFORMED USING GLOBAL POSITIONING SYSTEM PROCEDURES AND EQUIPMENT

NARRATIVE

This survey was performed at the request of Kinder Morgan Altamont in order to determine the location of the boundary line between the Mecham and Whiting property in Section 11 and to show the relative location of the existing pipelines and fences in relation to said property line. The monuments marking the Public Land Survey System corners were found as noted on the plat and used to perform a statutory subdivision of Section 11. The aliquot part lines were derived from the subdivision as shown.

SURVEYOR'S CERTIFICATE

This is to certify that this plat was prepared from the field notes and electronic data collector files of an actual survey made by me, or under my personal supervision, of the parcels of land shown hereon, and that the monuments indicated were found or set during said survey, and that this plat accurately represents said survey to the best of my knowledge.
