

PROPERTY SURVEY FOR  
**TERRY ERCANBRACK**

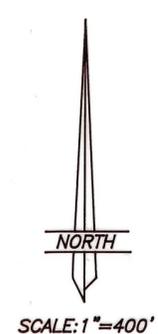

SECTIONS 24 & 25, TOWNSHIP 1 SOUTH, RANGE 2 WEST  
UINTAH SPECIAL BASE AND MERIDIAN

THIS SURVEY WAS PERFORMED USING GLOBAL POSITIONING SYSTEM (GPS) EQUIPMENT AND PROCEDURES

**NARRATIVE**

The purpose of this survey was to establish the property corners on the ground of the parcels specified by the client. The monuments found and set are noted on the plat. The deeds creating the separate parcels in the SW1/4 of the SE1/4 of Section 24 were prepared on the same day and recorded all together, Entry numbers 118673 through 118679. These parcels were therefore treated by this survey as a simultaneous conveyance with each parcel having equal rights. The same situation occurred with the parcels indicated in Section 25. They also were all created on the same day and treated by this survey as a simultaneous conveyance. The East 42 rods of the NE1/4 of the NE1/4 of Section 25 is the senior parcel in this tract and was used to determine the East line of the parcels surveyed. The two parcels in the NW corner of this tract are also senior to the surveyed parcels and were used to determine the North boundaries of the parcels surveyed.

**SURVEYOR'S CERTIFICATE**

This is to certify that I have surveyed the parcels of land shown on this plat, and that the monuments indicated were found or set during said survey, and that this plat accurately represents said survey to the best of my knowledge.
