

PROPERTY SURVEY FOR
MICHAEL FISHER
 SECTION 13, TOWNSHIP 1 SOUTH, RANGE 4 WEST
 UINAH SPECIAL BASE AND MERIDIAN

THIS SURVEY WAS PERFORMED USING G.P.S. (GLOBAL POSITIONING SYSTEM) PROCEDURES AND EQUIPMENT.
 THE BASIS OF BEARINGS WAS BASED ON WGS-84 DATUM.

NARRATIVE

This survey was performed at the request of Michael Fisher for the purpose of locating the West line of the NE1/4 of the NE1/4 of Section 13 as shown on this plat. Section 13 was originally surveyed by the General Land Office using the "Three-Mile" method during which the sixteenth corners were set. A search was made for the monuments marking the Public Lands Survey System (PLSS) corners and the results are noted on the plat. The corners were then determined as indicated. This plat represents the dependent resurvey and the Three Mile Method subdivision of portions of Section 13, and is designed to restore the PLSS corners to their true original locations according to the best available evidence. The Basis of Bearings for the survey is based on WGS84 datum which gave a bearing of North 89°01'33" East between the South Quarter Corner and the Southeast Corner of Section 13.

SURVEYOR'S CERTIFICATE

This is to certify that this plat was prepared from the field notes and electronic data collector files of an actual survey made by me, or under my personal supervision, of the parcel of land shown hereon, and that the monuments indicated were found or set during said survey, and that this plat accurately represents said survey to the best of my knowledge.

Jerry D. Allred, Professional Land Surveyor,
 Certificate No. 148954, (Utah)
