NARRATIVE

PURPOSE OF SURVEY: The purpose of this survey was to establish the boundaries of the above described tracts of land and to mark the corners with permanent monuments.  
 BASIS OF BEARING: The basis of bearing was assumed East along the North section line as per G.L.O. data.  
 SURVEY FINDINGS: I found original corners or monuments as indicated. I also used fencelines to establish the positions of some 1/16 corners which is consistent with approved methods to re-establish corners. This area was originally surveyed under the "three mile method".
