NARRATIVE

PURPOSE OF SURVEY: The purpose of this survey was to establish the boundaries of the above described tracts of land and to set permanent markers at the property corners.

BASIS OF BEARING: The basis of bearing was taken on the South line of Section 25 as per the G.L.O. data of the 1919 resurvey of Township 3 South, Range 3 West.

SURVEY FINDINGS: I used the South line of Section 25 as the basis for the survey. I followed the G.L.O. record bearings and distances of the above mentioned 1919 resurvey to re-establish the positions of the 40 acre property corners. I found only one original pipe monument (brass cap gone) at a 1/16 corner as indicated on the plat. This fit within a 0.10 of a foot of the G.L.O. record.
