NARRATIVE

This survey was performed at the request of Mr. Rodney Harman for the purpose of adjusting the boundary line between the Harman and Merritt parcels as shown on this plat. This adjustment uses the existing road and stream features as the common boundary line and brings ownership more into agreement with possession on the ground. The Southeast Section Corner and South Quarter Corner monuments were found as indicated and used to control the survey. Records on file with the Duchesne County Surveyor's Office were also used for reference.
