 DATE

Basis of bearing is line between NE and NW corners GLO field notes.

**NARRATIVE**

In the summer of 1980 a client requested that I determine and set the center of Section 20, Twnshp 4S, Rng 8W Uintah Special Meridian, and stake four ten acre parcels in the SW 1/4 of the NE 1/4.  
 After a diligent search using notes from the Government Land Office three monuments marking the section corners were located and bearing trees with ties to set the fourth. No quarter corners were found.  
 The center of the section was set at the intersection of the lines that bisect the north and south and east and west section lines as determined by a survey of the section.
